### LABORATORY TEST REPORT

TEST PARAMETER	RESULT	UNIT	REFERENCE RANGE	SAMPLE TYPE
SEROLOGY				
<b><u>DENGUE PROFILE</u></b>				
<b>DENGUE IgG</b> <i>Method : Immunochromatography Card</i>	<b>Weakly positive</b>		Negative	Serum
<b>DENGUE IgM</b> <i>Method : Immunochromatography Card</i>	Negative		Negative	
<b>DENGUE NS1 ANTIGEN</b> <i>Method: Immunochromatographic Assay-Card</i>	Negative		Negative	

**Note:**

**Dengue IgG** Negative result at any time does not preclude the possibility of early infection of the dengue virus. In the case of primary dengue infection, Dengue IgG is not detectable up to 14 days after the onset of illness.

**Dengue IgM** Negative result at any time does not preclude the possibility of early infection of the dengue virus. In early infections and some secondary infections, detectable levels of IgM antibodies may be low. Some patients may not produce detectable levels of antibodies within the first 7-10 days after infection. Where the symptoms persist, patients should be retested 3-5 days after the first testing date.

**Dengue NS1 Antigen** In primary dengue infection, specific NS1 antigen level gets elevate 0-9 days after the onset of symptoms and generally persists up to 15 days. A Negative result at any time does not preclude the possibility of early infection of dengue virus.

## LABORATORY TEST REPORT

### TERMS & CONDITIONS OF REPORTING

- It is presumed that the specimen belongs to the patient named or identified in the test request form.
- The report results are for information and interpretation for your referring doctor can be correlated with the patient's clinical history.
- Biological Reference Range/Interval is suggested for your Gender and Age on the basis of available literature. All reference ranges are to be reconsidered by the doctor's advice for your specific care.
- Test requested might not be performed for the following reasons
  - Specimen quality insufficient (inadequate collections/spillage in transit)
  - Specimen quality unacceptable (haemolysed/clotted/ lipemic etc.)
  - Incorrect specimen type.
  - Test cancelled either or request of patient or doctor, or because of incorrect test code, test name of specimen received. Reference may be provided to a new Accession number. Under "COMMENT" if the specimen has been re-accessioned for a different test. It is expected that a fresh specimen will be sent for the purpose of reporting on the same parameter(s), if required.
- This Medical Report is a professional opinion, not a diagnosis. Test results are not valid for medico legal purposes.
- The report will carry the name and age provided at the time of registration. To maintain confidentiality, certain reports may not be e-mailed at the discretion of the management.
- All the notes and interpretation beneath the test result in the report provided are for educational purposes only. It is not intended to be a substitute for doctor's consultation.
- Reports that carries a 'PRELIMINARY' status signifies that results are yet to be reported for one or more of the test, or else as is the case with many microbiology tests, a 'FINAL' culture, identification or drug susceptibility result might be pending. In such case, the descriptor "RESULTS" column will be replaced by the test results whenever the latter are ready. The report will, when completed, acquire a 'FINAL' status.
- Results of tests may vary from laboratory to laboratory and in some parameters from time to time for the same patients. Test results and reference range may also vary depending on the technology and methodology used. Laboratory test results may also vary depending on the age, sex, time of the day sample has been taken, diet, medication and limitation of modern technology.
- In case of any unexpected or alarming test results, please contact us immediately for re-confirmation, further discussion, clarifications and rectifications, if needed only.
- In case of any discrepancy due to typing error, kindly get It rectified immediately. The collection date was not stated in the Test Requisition Form, the same will not be printed on the report.
- The Lab or its employees/representatives does not assume any liability or responsibility for any loss or damage that may be incurred by any person as result of interpreting the meaning of this report.
- In case of any issues or suggestions about your test results, please email us on [lab@tridentdiagnostics.com](mailto:lab@tridentdiagnostics.com)
- Our liability is limited to the amount of investigations booked with us.
- The courts (forums) at Bengaluru shall have exclusive jurisdiction in all disputes/claims concerning the tests and the results of the tests.
